

MD. ASAFUDDAULA SOBAHANI SHOUNAK

Senior Unity Developer | XR & Simulation Engineer | Team Lead

Dhaka, Bangladesh | shounak00@gmail.com | +880-1308542586

LinkedIn: linkedin.com/in/shounak00 | GitHub: github.com/shounak00 | Portfolio: shounak00.github.io/me

PROFESSIONAL SUMMARY

Senior Unity Developer and Team Lead with 5+ years of experience shipping 15+ titles across mobile games, medical simulation, VR training, and digital twins, with 7.5M+ combined downloads on Google Play Store. Currently lead a cross-functional team of 8 (3 Unity developers, 4 artists, 1 QA) at Talent Pro, building enterprise-grade medical simulation and XR training platforms used by healthcare institutions in Singapore. Previously a core developer on Bus Simulator BD (5M+ downloads) and lead of a 9-member team on a co-op tactical shooter. Reduced content production cycles by 40% through simulation authoring and workflow automation tools. Experienced in multiplayer networking, AI systems, performance optimization for low-end devices, and end-to-end Android build and Play Store publishing.

CORE TECHNICAL SKILLS

- **Game Engines:** Unity Engine (URP, XR Toolkit, UI Toolkit, Addressables), Unity ECS/DOTS, Data-Oriented Architecture
- **Programming Languages:** C#, .NET/ASP.NET Core, JavaScript, C++, Python
- **Architecture & Systems:** ECS-Inspired Architectures, Multiplayer Networking, AI Systems (Pathfinding, Behavior Trees, State Machines), Combat Systems, Modular System Architecture
- **Simulation & Training:** Medical Simulation, Scenario-Based Training, Simulation Authoring & Workflow Automation, Digital Twins, Real-Time Control Systems
- **XR Development:** VR/AR Development (Meta Quest 2/3), VR Medical Training, VR Crane Operation Simulation, Xreal Glasses
- **Tools & Integration:** Custom Development Tools for Scalable Content Production, LMS Integration, Learning Record Store (LRS), xAPI Analytics Pipelines, Cursor, Claude Code, Unity MCP
- **Backend & Infrastructure:** Backend Integration, REST APIs, Performance Optimization (CPU, GPU, Memory), Rendering Optimization
- **Project Management:** Git, Jira, Agile/Scrum, Release Management, Play Store Publishing, Live-Ops Strategy, Team Leadership & Mentoring

PROFESSIONAL EXPERIENCE

Senior Unity Developer (Lead)

Talent Pro | June 2024 - Present

- Lead a cross-functional team of 8 (3 Unity developers, 4 artists, 1 QA) building enterprise-grade medical simulation and XR training platforms for healthcare institutions in Singapore.
- Architect ECS-driven systems for scalable scenario execution, assessment logic, and performance-critical simulation workflows.
- Design simulation authoring and workflow automation tools that enable non-technical subject matter experts (SMEs) to create training scenarios, reducing content production cycles by 40%.
- Develop VR medical training applications for Meta Quest 3 and a VR digital twin for JLG crane operation training.
- Integrate xAPI and Learning Record Stores (LRS) with LMS platforms for data-driven learner analytics.
- Mentor Unity engineers and define engineering standards, coding guidelines, and Agile/Scrum workflows across the team.

Senior Unity Developer

Ghost Interactive | February 2022 - May 2024

- Shipped 6 published titles on Google Play Store spanning simulation, racing, and multiplayer tactical genres.
- Core developer on the 8-person team behind Bus Simulator BD (5M+ downloads), owning vehicle physics simulation, real-time multiplayer, and rendering optimization for low-end Android devices.
- Led a 9-member cross-functional team (5 artists, 2 developers, 2 QA) on a co-op stealth tactical shooter, owning multiplayer networking, combat systems, and enemy AI.

- Delivered BSBD Local Service (1M+ downloads) and Endless Dhaka (100K+ downloads), both with real-time multiplayer optimized for low-end devices.
- Designed ECS-inspired architectures for gameplay and simulation systems, and built internal tools that improved content production and QA efficiency.

Junior Software Engineer (Game)

Toontech (Games4Life) | March 2021 - January 2022

- Developed Trench Warfare - WW1 War Games (1M+ downloads), implementing AI-driven pathfinding, enemy behavior, and real-time strategy mechanics.
- Built The Rem (500K+ downloads), an escape horror survival game with a modular, scalable architecture supporting rapid content iteration.
- Contributed to gameplay programming, UI systems, and performance optimization across multiple shipped titles.

Junior Game Developer

Technomagix Pvt Ltd | September 2020 - February 2021

- Developed mobile game prototypes and contributed to gameplay programming using Unity and C#.
- Implemented UI systems, input handling, and core gameplay mechanics for mobile platforms within Agile workflows and code review processes.

KEY PROJECTS

SIT CPREP - Clinical Preparedness E-Learning Program (Singapore Institute of Technology)

- Real-world medical simulation scenarios for radiographers and physiotherapists with branching scenario logic and assessment systems.
- ECS-inspired architecture managing scenario flow, assessment, and state across all simulation modules.
- Authoring and automation tooling for non-technical SMEs, plus LMS and Learning Record Store (xAPI) integration for analytics-driven performance tracking.

JLG Crane - Digital Twin (VR)

- VR-based digital twin for real-time crane operation training on Meta Quest, with system-driven interaction logic, physics coordination, safety validation, and real-time feedback.

Bus Simulator BD (BSBD) - 52K+ Reviews, 4.0 Stars

- Top simulation game in Bangladesh on Google Play Store, built by an 8-person team.
- Engineered dynamic traffic AI and maintained 30+ FPS on low-end target hardware, sustaining performance stability across multiple content updates.

BSBD Local Service - 1M+ Downloads, 4.2 Stars

- Lightweight multiplayer version of BSBD with a performance-focused rendering pipeline and reduced memory footprint for limited hardware.

Endless Dhaka - 100K+ Downloads

- Multiplayer racing game set in Dhaka city streets, featuring real-time networking, vehicle handling systems, and optimized city environment rendering.

Trench Warfare - WW1 War Games - 1M+ Downloads, 10.7K+ Reviews

- WW1 strategy game with real-time strategy mechanics, AI-driven enemy behavior, unit pathfinding, and tactical decision-making systems.

The Rem - 500K+ Downloads

- Escape horror survival game with modular gameplay systems enabling rapid content iteration and atmospheric horror mechanics.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science & Engineering

Jahangirnagar University, Bangladesh | CGPA: 3.17 / 4.00

CERTIFICATIONS

Game Design and Development

- Game Design and Development Specialization, Capstone, Game Development for Modern Platforms, Business of Games and Entrepreneurship, Principles of Game Design - Michigan State University (Coursera).
- Introduction to Game Development; Introduction to C# Programming and Unity; More C# Programming and Unity - University of Colorado (Coursera).

Unity / XR / AR

- Unity and C# Basics - Meta; Unity Essentials - Unity.
- Unity: Building VR User Interfaces; Unity: Integrating GPS and Points of Interest; AR Development Techniques 01-02; Unity Medical Visualization 01-03; Cert Prep: Unity Certified Associate Game Developer Fundamentals; Unity: Interactivity for AEC - LinkedIn Learning.

AI / Generative AI

- Introduction to Prompt Engineering for Generative AI; Generative AI Skills for Creative Content; AI Productivity Hacks; Excel with Copilot: AI-Driven Data Analysis; Copilot in PowerPoint - LinkedIn Learning.

Agile / Software Practices

- Agile Project Management with Jira Cloud 1-3; Mistakes to Avoid in Agile Project Management - LinkedIn Learning.

Product Management

- Product Management: First Steps, Customer Development, Building a Product Roadmap, Building a Product Strategy; Technical Product Management - LinkedIn Learning.

Industry, Government & Foundations

- Intel Edge AI Scholarship (OpenVINO Fundamentals) - Intel Corporation; Training for Mobile Application Developer (iOS) - ICT Division, Bangladesh.
- Career Essentials in Software Development - Microsoft & LinkedIn; Programming Foundations: Fundamentals and Beyond the Fundamentals; Public Speaking Foundations - LinkedIn Learning.

DECLARATION

I hereby declare that all the information provided above is true, complete, and accurate to the best of my knowledge and belief.
